

every cloud has a silver lining

when you have a  
**Superser** mobile heater

**Superser.** when the heating breaks down.

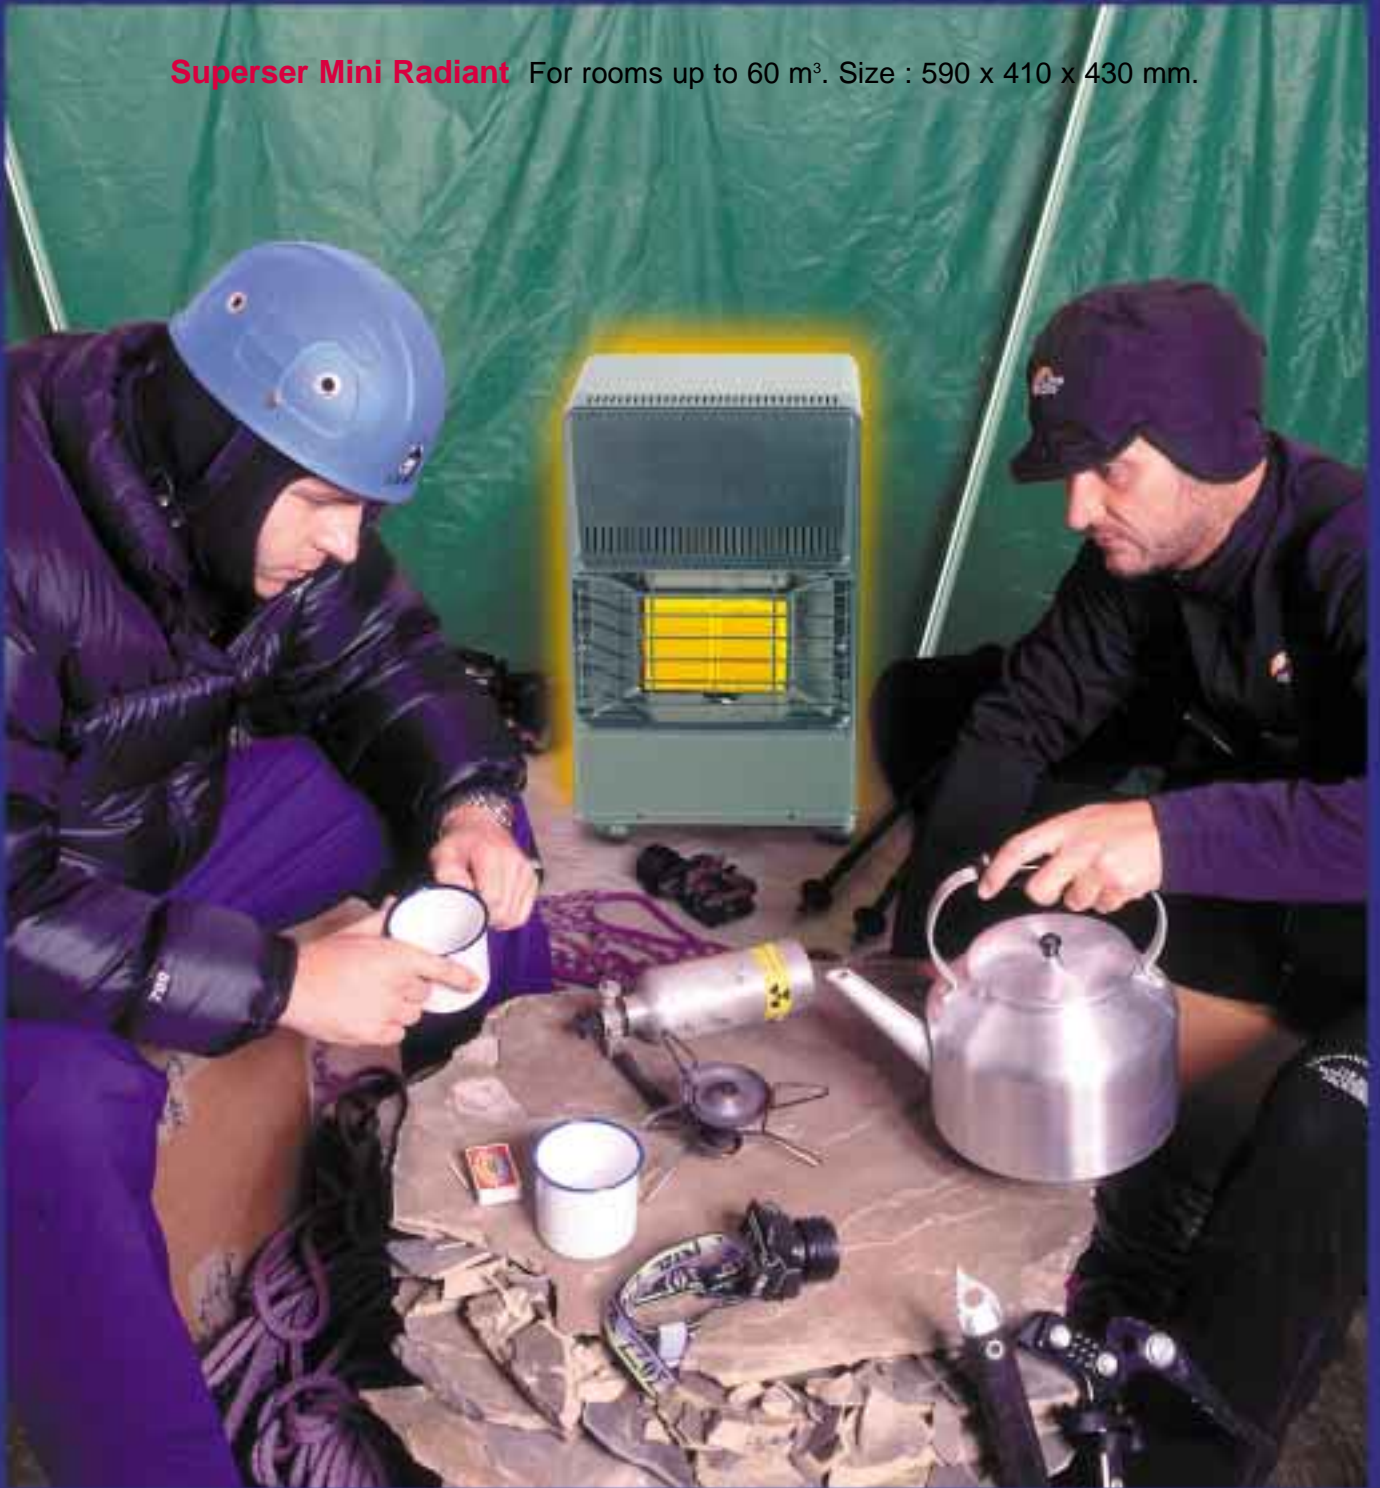

**Superser Catalytic F250** For rooms up to 90 m<sup>3</sup>. Size : 713 x 445 x 430 mm.

There's ice on the roads, snow in the air, and your central heating's packed in - but who cares? You have your **Superser** to keep you warm. A **Superser Catalytic Heater** is totally self contained, doesn't need a power point, glides effortlessly to where it's needed, and warms any room in minutes. It's the perfect solution to heating emergencies and, with its elegant good looks, a **Superser** is a pleasing solution too!

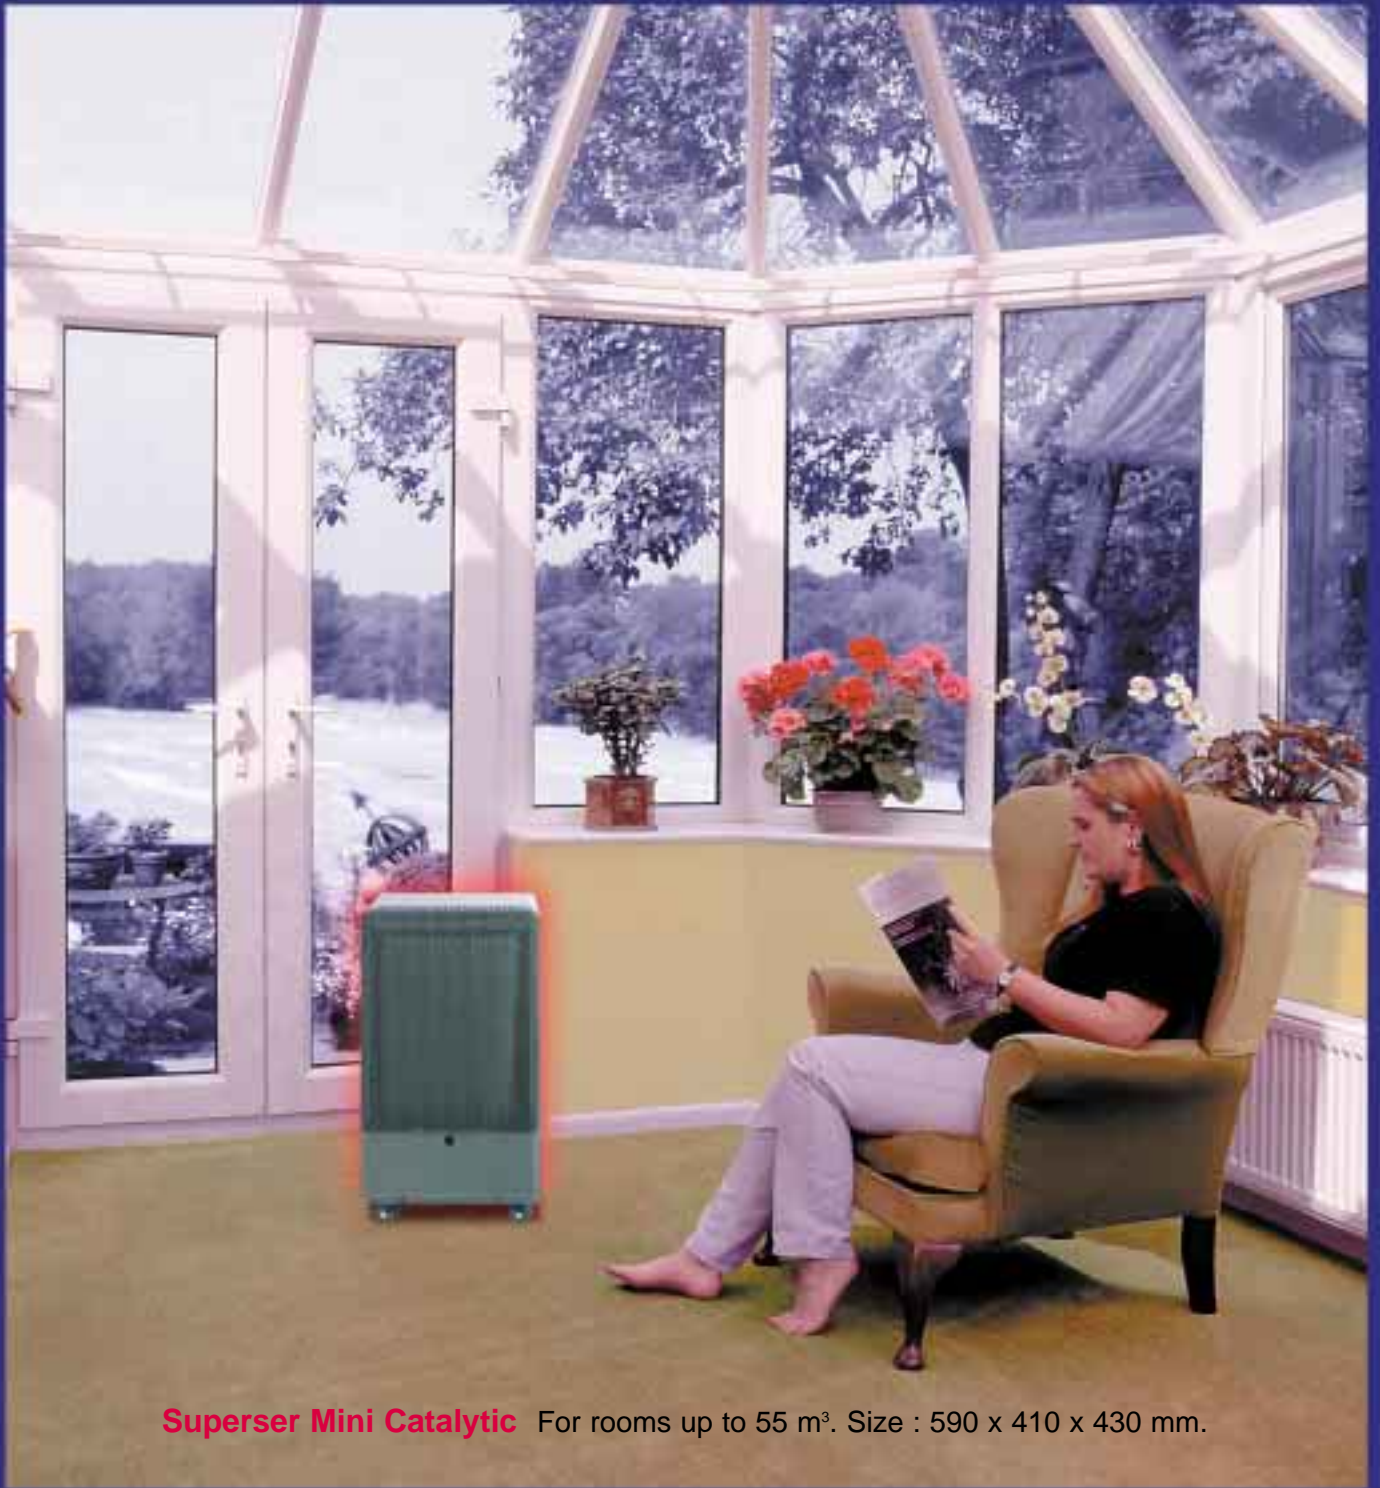

# Superser. when there isn't any heating.

**Superser Mini Radiant** For rooms up to 60 m<sup>3</sup>. Size : 590 x 410 x 430 mm.

You may not want to take one to Everest but you could, because **Superser Radiant Heaters** are totally self contained, easy to move around, and will warm any enclosed space in minutes. A **Superser** is inexpensive to buy and to run, and perfect for caravans, country cottages, chalets and holiday homes - anywhere, in fact, where you want to be warm and cosy inside, whatever the weather outside.

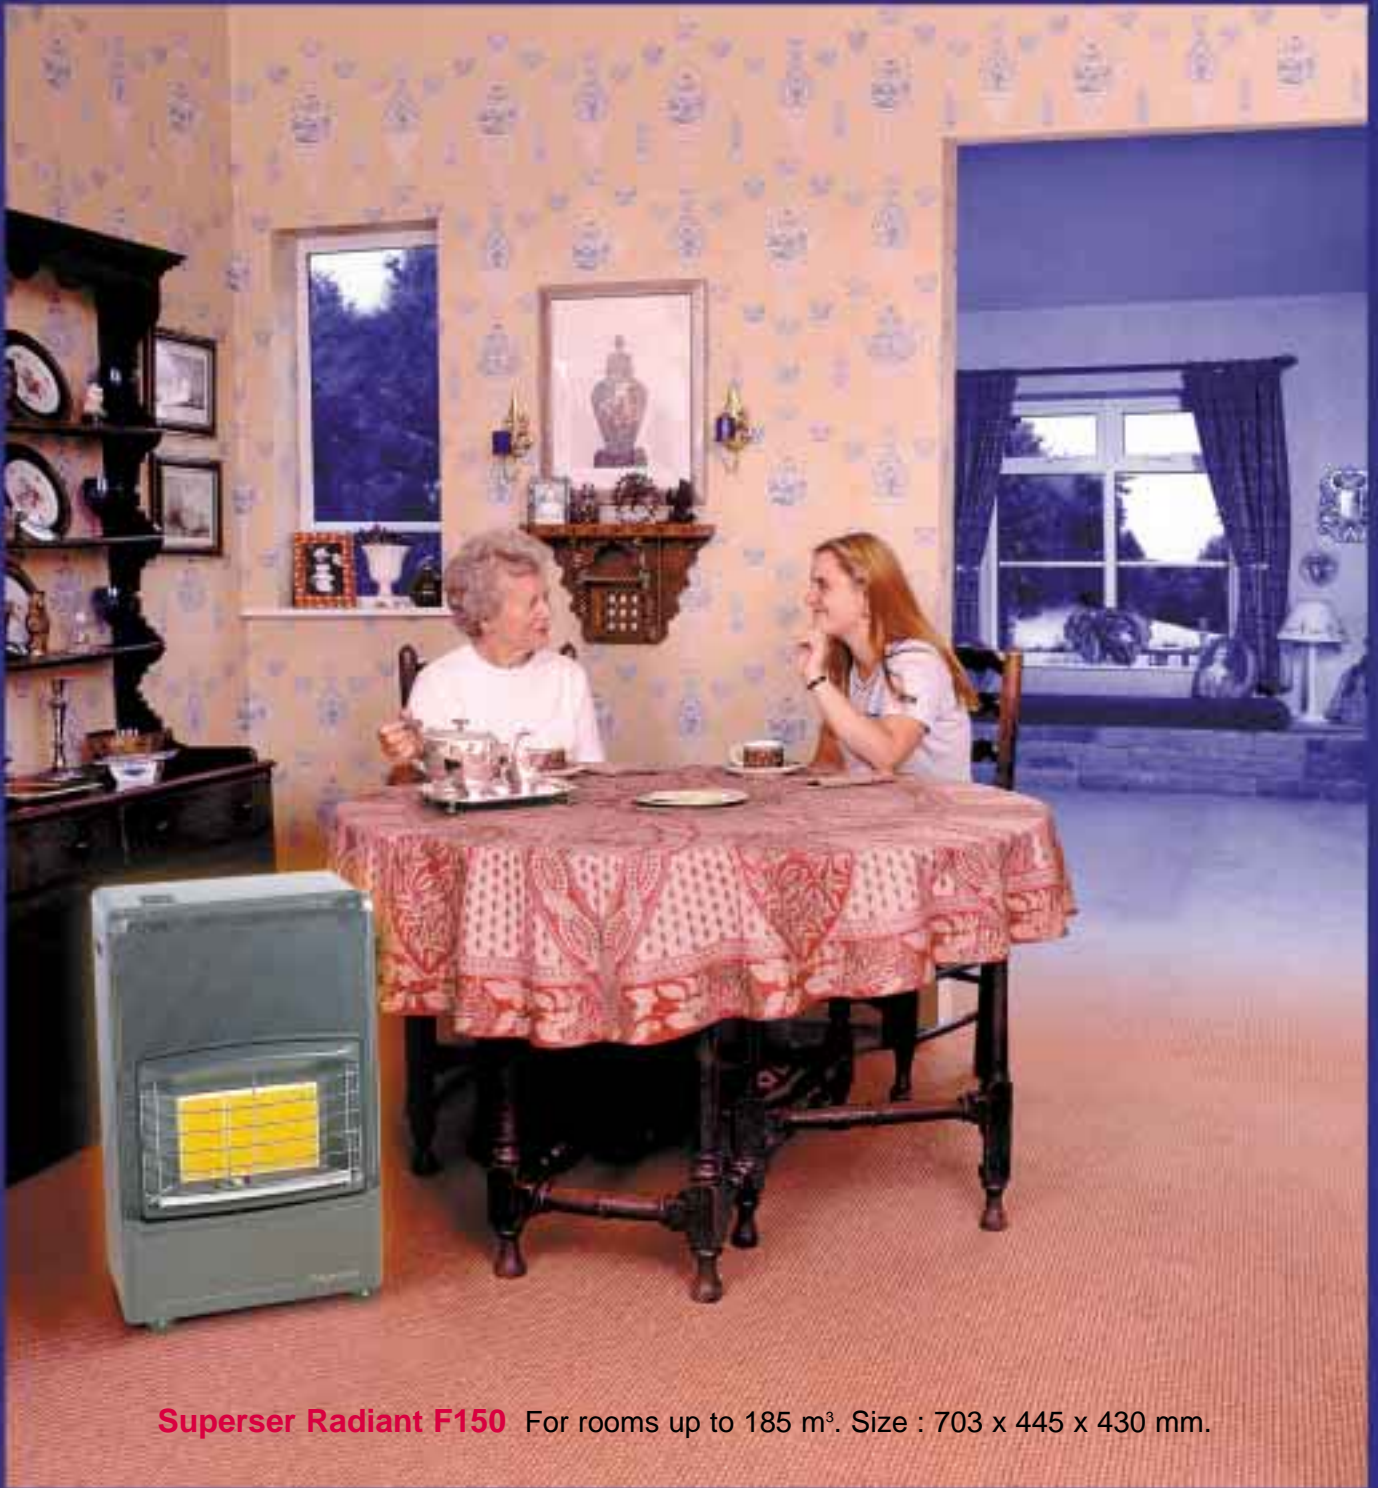

**Superser.** when the heating can't cope.

**Superser Mini Catalytic** For rooms up to 55 m<sup>3</sup>. Size : 590 x 410 x 430 mm.

Will the central heating cope with your conservatory this winter? Or will the temperature fall inside as the snow falls outside? A **Superser Catalytic Heater** Is quiet, efficient, unobtrusive, and amazingly cheap to run. For just a few pence a day it will keep the climate in your conservatory perfect on cold winter days - for you and your plants. And take the chill off the air on perfect summer evenings, too. Everyone who likes a hothouse should have a **Superser!**

**Superser.** when the heating bill is too high.

**Superser Radiant F150** For rooms up to 185 m<sup>3</sup>. Size : 703 x 445 x 430 mm.

Central heating is all very well, but when you want to heat just one room, not the whole house, there's nothing better than a **Superser**. Because **Superser Radiant Heaters** are totally self contained, easy to move around, and will warm any room in minutes. They're inexpensive to buy, cheap to run, and when you realise just how much you can save by only having heat where you need it, you'll feel a warm glow - inside as well as out.

# technical data

## general features

- high performance burner
- 3 heating-power settings
- piezoelectric ignition
- multi-directional castors
- hinged rear plate

## safety features

- automatic pilot-light cut-off system
- oxygen analyser
- ABS protector

### Superser Catalytic F250 Weight: 9.1 Kg

Selector Position	W	Heat Output		Consumption
		K.cal	Btu	gr/h
111	3000	2500	10000	210
11	2300	2000	8000	170
1	1800	1500	6000	130

### Superser Radiant F150 Weight: 9.1 Kg

Selector Position	W	Heat Output		Consumption
		K.cal	Btu	gr/h
